Class 1 Follow-up and Assignment

Once you have web access you can always go to the [Lead Stewards in Training](#) page for links to important information. You need to be logged into the website and Google Drive to see all the linked files.

Class 1 recording and slides available for viewing

If you missed the class but still wish to participate in the training, please get in contact with Sharon, our Volunteer Coordinator. (the recording takes a long time to load, be patient)

Submit your Assignment (site visit 5 observations)

Visit your site (or a natural area) and make 5 observations. These can range from animal prints, human activity, scat, or testing out your [winter plant ID](#). For more detailed instructions, see [Class 1 Slides & Recordings](#).

Next class: Jan 25th Wed. 7pm - 9pm

Link to sessions <https://utoronto.zoom.us/j/86941142736>

Readings:

1. [Ecological Restoration](#)
2. For Lead Stewards --> Prepare for stewardship --> [Before the stewardship season](#)
3. [Invasive plant info sheets](#)
 - a) [Garlic mustard](#)
 - b) [Phragmites](#)

Instructions for Website access (if you have not registered)

OFFICE HOURS

If you have any questions or need help accessing the website/Google Drive, you can come to my virtual office **every Friday, from 2 to 3 pm (EST)**.
